## 2. Hazard(s) identification

## **Classification of the chemical**

## 29 CFR Part 1910.1200

This mixture is not classified as hazardous in accordance with Regulation 29 CFR 1910.1200(d).

## Label elements

#### Hazards not otherwise classified

No information available.

## 3. Composition/information on ingredients

## **Mixtures**

#### Hazardous components

none (according to 29 CFR 1910.1200(g))

## **Further Information**

Full text of H statements: see section 16.

## 4. First-aid measures

## **Description of first aid measures**

#### **General information**

In all cases of doubt, or when symptoms persist, seek medical advice. Never give anything by mouth to an unconscious person or a person with cramps. If unconscious but breathing normally, place in recovery position and seek medical advice.

# DINOL

# Safety Data Sheet

according to 29 CFR 1910.1200(g)

## **DINITROL 964**

Revision date: 11/20/2024

Product code: 6424

Page 2 of 8

## After inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

## After contact with skin

Change contaminated clothing. Wash with plenty of water/Soap. Do not wash with: Solvent/Thinner.

#### After contact with eyes

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

#### After ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Call a physician immediately. Put victim at rest, cover with a blanket and keep warm.

## Most important symptoms and effects, both acute and delayed

No information available.

#### Indication of any immediate medical attention and special treatment needed

No information available.

## 5. Fire-fighting measures

## Extinguishing media

#### Suitable extinguishing media

alcohol resistant foam, Carbon dioxide (CO2), Extinguishing powder, Water fog.

Unsuitable extinguishing media

High power water jet.

## Specific hazards arising from the chemical

No further relevant information available.

#### Special protective equipment and precautions for fire-fighters

No further relevant information available.

## Additional information

Use water spray/stream to protect personnel and to cool endangered containers. Supress gases/vapors/mists with water spray jet.

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

## 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

## General advice

Special danger of slipping by leaking/spilling product.

# Ventilate affected area.

## For emergency responders

For further specification, refer to section 8 of the SDS.

## Environmental precautions

Do not allow uncontrolled discharge of product into the environment.

In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

## Methods and material for containment and cleaning up

## For containment

Prevent spread over a wide area (e.g. by containment or oil barriers). Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents).

according to 29 CFR 1910.1200(g)

## **DINITROL 964**

Revision date: 11/20/2024

Product code: 6424

Page 3 of 8

Treat the recovered material as prescribed in the section on waste disposal.

## For cleaning up

Provide adequate ventilation. Clear contaminated areas thoroughly. Do not rinse down with water.

## Other information

No information available.

#### Reference to other sections

Safe handling: see section 7 Personal protection equipment (PPE): see section 8 Disposal: see section 13

## 7. Handling and storage

## Precautions for safe handling

## Advice on safe handling

If handled uncovered, arrangements with local exhaust ventilation have to be used. If local exhaust ventilation is not possible or not sufficient, the entire working area should be ventilated by technical means.

## Advice on protection against fire and explosion

No special measures are necessary.

#### Advice on general occupational hygiene

The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, drink and animal feedingstuffs. Remove contaminated, saturated clothing immediately. Draw up and observe skin protection programme. Wash hands and face before breaks and after work and take a shower if necessary. When using do not eat or drink.

## Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

No special measures are necessary.

## Hints on joint storage

Not required.

## Further information on storage conditions

storage temperature: >0° - < 30°C

## 8. Exposure controls/personal protection

#### **Control parameters**

Additional advice on limit values

# Not required.

## Exposure controls

#### Appropriate engineering controls

Provide adequate ventilation.

If handled uncovered, arrangements with local exhaust ventilation should be used if possible.

If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be

## worn.

## Individual protection measures, such as personal protective equipment

## according to 29 CFR 1910.1200(g)

## **DINITROL 964**

Revision date: 11/20/2024

DINOL

Product code: 6424

Page 4 of 8

## Eye/face protection

Eye glasses with side protection (EN 166)

#### Hand protection

Tested protective gloves must be worn (EN ISO 374): FKM (fluoro rubber), Breakthrough time:: 480 min. NBR (Nitrile rubber), Breakthrough time:: 480 min. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Protective gloves have to be replaced at the first sign of deterioration. Protect skin by using skin protective cream.

#### Skin protection

Wear anti-static footwear and clothing

## **Respiratory protection**

Not required.

#### 9. Physical and chemical properties

## Safety Data Sheet

according to 29 CFR 1910.1200(g)

## DINITROL 964 Product code: 6424

Revision date: 11/20/2024

## Other safety characteristics

Evaporation rate: Solvent separation test: Solvent content: Solid content: Sublimation point: Softening point: Pour point: Viscosity / dynamic: Flow time: (at 20 °C)

#### **Further Information**

No information available.

#### 10. Stability and reactivity

## **Reactivity**

No hazardous reaction when handled and stored according to provisions.

## Chemical stability

Stability:

Stable

The product is stable under storage at normal ambient temperatures.

## Possibility of hazardous reactions

Hazardous reactions:

Will not occur

## Conditions to avoid

No known hazardous reactions.

No known hazardous reactions.

#### **Incompatible materials**

No information available.

## Hazardous decomposition products

Carbon monoxide

#### 11. Toxicological information

## Route(s) of Entry

No information available.

## Information on toxicological effects

## Acute toxicity

Based on available data, the classification criteria are not met.

## ATEmix calculated

ATE (oral) > 5000 mg/kg; ATE (dermal) > 5000 mg/kg; ATE (inhalation vapour) > 20 mg/l; ATE (inhalation dust/mist) > 5 mg/l

## Irritation and corrosivity

Skin corrosion/irritation: Based on available data, the classification criteria are not met. Serious eye damage/eye irritation: Based on available data, the classification criteria are not met.

## Sensitizing effects

Based on available data, the classification criteria are not met.

## Carcinogenic/mutagenic/toxic effects for reproduction

Germ cell mutagenicity: Based on available data, the classification criteria are not met. Carcinogenicity: Based on available data, the classification criteria are not met. Reproductive toxicity: Based on available data, the classification criteria are not met.

#### Specific target organ toxicity (STOT) - single exposure Based on available data, the classification criteria are not met.

## Specific target organ toxicity (STOT) - repeated exposure

Based on available data, the classification criteria are not met.

Carcinogenicity (OSHA):	No ingredient of this mixture is listed.
Carcinogenicity (IARC):	No ingredient of this mixture is listed.
Carcinogenicity (NTP):	No ingredient of this mixture is listed.

#### Aspiration hazard

Based on available data, the classification criteria are not met.

Specific effects in experiment on an animal

No information available.

## Additional information on tests

No information available.

## **Practical experience**

No information available.

## Information on other hazards

## Endocrine disrupting properties

Endocrine disrupting potential No information available.

#### **Further information**

There are no data available on the preparation/mixture itself.

### 12. Ecological information

## Persistence and degradability

There are no data available on the mixture itself.

#### **Bioaccumulative potential**

There are no data available on the mixture itself.

#### Mobility in soil

There are no data available on the mixture itself.

#### Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

## Other adverse effects

No information available.

#### **Further information**

There are no data available on the preparation/mixture itself. Do not allow to enter into surface water or drains.

## 13. Disposal considerations

#### Waste treatment methods

## **Disposal recommendations**

Dispose of waste according to applicable legislation. Do not mix with other wastes.

#### Contaminated packaging

Completely emptied packages can be recycled. Remove according to the regulations.

## 14. Transport information

## Other data

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

(The data for the relevant ingredients were taken respectively from the last version of the sub-contractor's safety data sheet.)
