

PROTECTING AND PRESERVING **VALUES**

Corrosion protection systems
for industrial applications

removed mechanically. The various products are optimized for different applications and have different film properties. Some leave an oily film, while others are greasy, wax-like or resemble a paint after curing.

We are constantly developing our products. Tailored exactly to your requirements. With a strong focus on environmental sustainability. We always offer our high-quality products for all problems in the right size and the right package. Your problem solving is what drives us. There is only one solution to achieve this goal: Quality!

ON THE SAFE SIDE WE ARE AGAINST STANDSTILL

We would be happy to advise you which protection is the best for your requirements. No matter whether temporary or permanent. No matter which machines, components or parts you want to protect: we have the solution.

[illegible]

DINITROL PENETRANT LT

Universally applicable corrosion protection agent

- ✓ Petroleum-resin-reinforced film
- ✓ Tack-free, waxy film
- ✓ OEM truck approvals
- ✓ Strong corrosion protection properties
- ✓ Long-lasting protection
- ✓ For cavities and open surfaces
- ✓ Protection in storage indoors and outdoors
- ✓ Protection during transport
- ✓ Water displacing rust protection

DINITROL 25B

Universally applicable corrosion protection agent

- ✓ Extremely penetrating
- ✓ Oily, easy removable film
- ✓ Short and medium term storage indoor or outdoor under cover
- ✓ Protection between processes
- ✓ Protection in storage indoors and outdoors
- ✓ Protection during transport
- ✓ Lubricating rust protection
- ✓ Water displacing rust protection

DINITROL 977

Environmentally friendly water-based corrosion protection agent

- ✓ Waterbased, environmentally friendly
- ✓ Very low VOC
- ✓ Good corrosion resistance
- ✓ Good penetration
- ✓ Low odour
- ✓ Film almost tack free
- ✓ Protection in storage outdoors
- ✓ Protection during transport

DINITROL 4010

Resistant corrosion inhibitor for engine protection and general surface protection

- ✓ Engine protection
- ✓ High temperature resistance
- ✓ High adhesion
- ✓ Longterm protection
- ✓ Protection in storage outdoors
- ✓ Decorative corrosion protection system

DINITROL 965 HIGH PERFORMANCE

Universally applicable engine protection product

- ✓ Tack-free
- ✓ Quick drying
- ✓ Easy to apply
- ✓ Temperature resistant
- ✓ Clean application
- ✓ Waterborne rust protection

QUESTIONS ABOUT OPTIMAL CORROSION PROTECTION:

- When and how long is the corrosion protection needed?
- Does it have to be removed after a certain time? And if so, how?
- How do I use corrosion protection properly?
- Do the corrosion protection products attack other materials?
- On which surfaces can it be used?
- Is the manufacturing process affected?
- Are there any other special requirements to be observed?
- Is protective equipment required?
- How do I optimally store the product?

We have the solution. For every requirement.
